REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-31 are allowed over the prior art of record. Current invention claims an elongated current limiting composite having a superconducting member surrounded by electrically second conductive member. "The composite exhibits an electric field in the range of about 0.05-0.5V/cm during a fault current limiting event ..." Such current limiter minimizes fault currents and improve recovery capability. Applicant's arguments are persuasive and therefore are incorporated into the Reasons for Allowance. Specifically, Applicant differentiates the current invention from the Shiga (see page 7 3rd paragraph of Remarks).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
